On the road, you can lead your way forward. With the right partner, you'll be able to explore the world. Make your life smarter. Give your family a space to grow. The Škoda Superb is that partner.

The new Superb comes with even more space for passengers and anything they might bring. A smarter way of control that combines the digital flow with a tactile experience. Next-level comfort with features like Ergo seats and even more practicality. A new vision of what your drive could be.

The new Škoda Superb. To lead is to explore.

The look to be followed

Looking smart and driving smart can be the same thing. We made the new Superb more efficient and more practical. We also turned it into a new vision of how a family explorer might look. Lead your way to the next adventure. And look great doing it!

Smooth & sharp at the same time

Smooth lines born from crystalline structures. A sleek shape built around practicality. The new Superb is large enough for many personalities. A safe space for whoever you might want to be.

Practical elegance

From the unmistakable, imposing front fascia with bold, wide grille and sharp-edged Crystallinium headlights, the smooth lines of the bodywork flow towards the spacious rear. Under the elegant, aerodynamic shape that cuts through air even easier than before, the new Superb once again offers exceptional space and practicality.

Thanks to the longer and higher body, all passengers have even more headroom. The stylish rear hides the largest luggage space in the class. Overall, the Superb once again proves that attractive looks, effective aerodynamics, and great practicality can go hand in hand.

LED Matrix beam headlights

Crystal clear view with a Crystallinium style. The LED Matrix beam headlights provide great visibility even with other cars around. The coloured crystalline element accentuates the sharp contours of the headlights, adding a touch of elegance and visual appeal.

LED rear lights with animated indicators

With crystalline elements inside, the LED rear lights with animated indicators create an unmistakable and easy-to-recognize visual signature. This look is underscored by the use of full LED technology and the dynamic turn signals, which illuminate sequentially towards in the direction you are turning.

Virtual Pedal

Full hands are not a problem anymore. With Virtual Pedal, just a swing of the foot under the bumper is enough to open the door. Available in combination with KESSY and electric 5th door.

Walk-away KESSY

Never forget to lock your car ever again. With the new walk-away function, the Keyless Entry Start and Exit System will not only lock and unlock your car with a touch of any of the four door handles, but will also automatically lock the doors when you walk away with the key.

A space to lead

A digital world that's nice to touch. A luxury feeling from sustainable materials. The new Superb merges traditions with a vision of the future. It leads the way to the digital world while retaining the intuitive tactile controls. Its sustainable new materials are attractive to look at and pleasant to touch. With the new column-mounted shifter and sleek Smart Dials, there's plenty of room for clever ideas and handy storage.
